

# How to use the Design Library and the Mockup Generator?

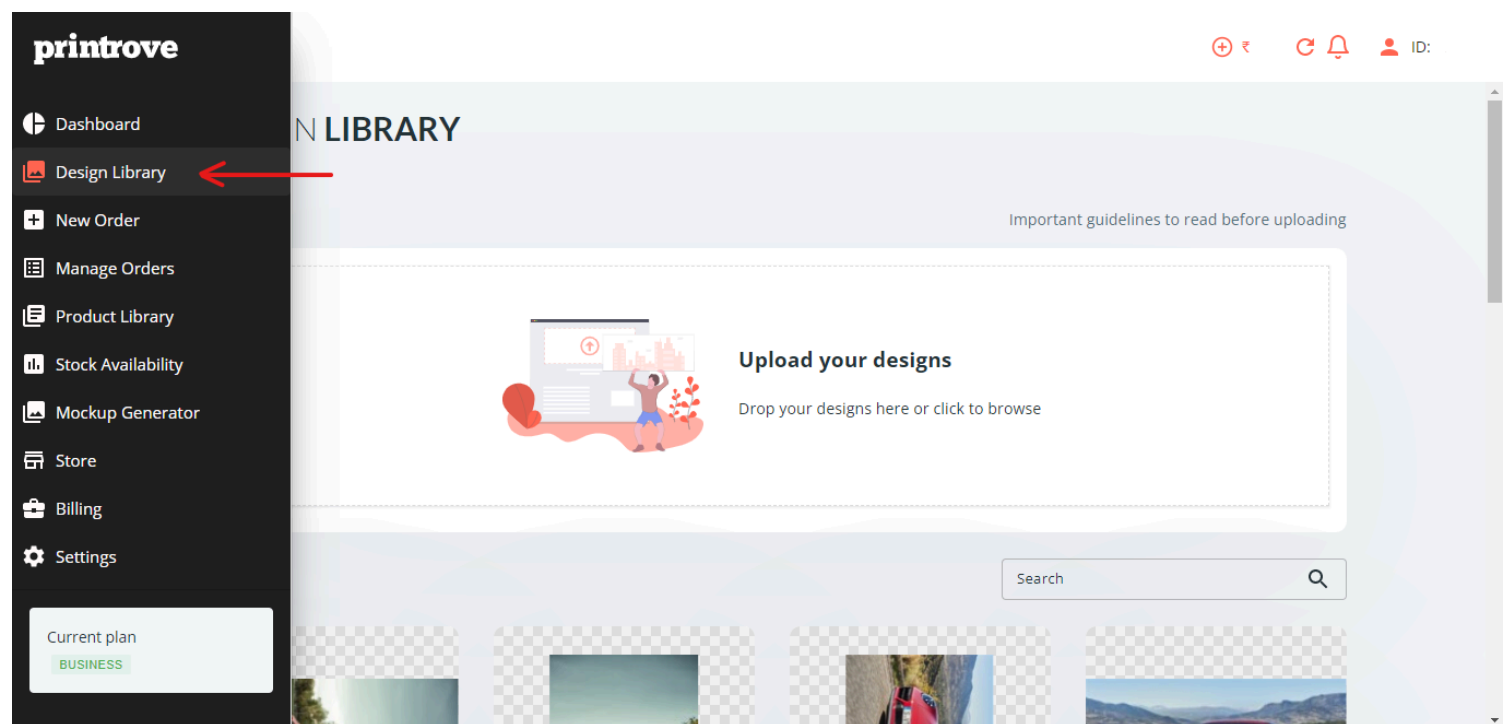

Learn how to use the Design Library and Mockup Generator to manage your designs and products.

## Design Library

The Design Library stores all your designs and helps you access them in one click. You can follow the steps below to upload your design files.

**Step 1:** Log in to your [Merchant Panel](#).

**Step 2:** Hover over the series of icons on the left and click on the Design Library.

**Step 3:** Drag and drop your design files on the Design Library page or click on Upload your Designs to select your design files from your desktop to upload them.

And Done! You have successfully uploaded your design files on the Merchant Panel making it accessible at one click whenever you are designing a product. All you will be required to do is **click on Add Your Design** in the design window to open up the Design Library and select your design.

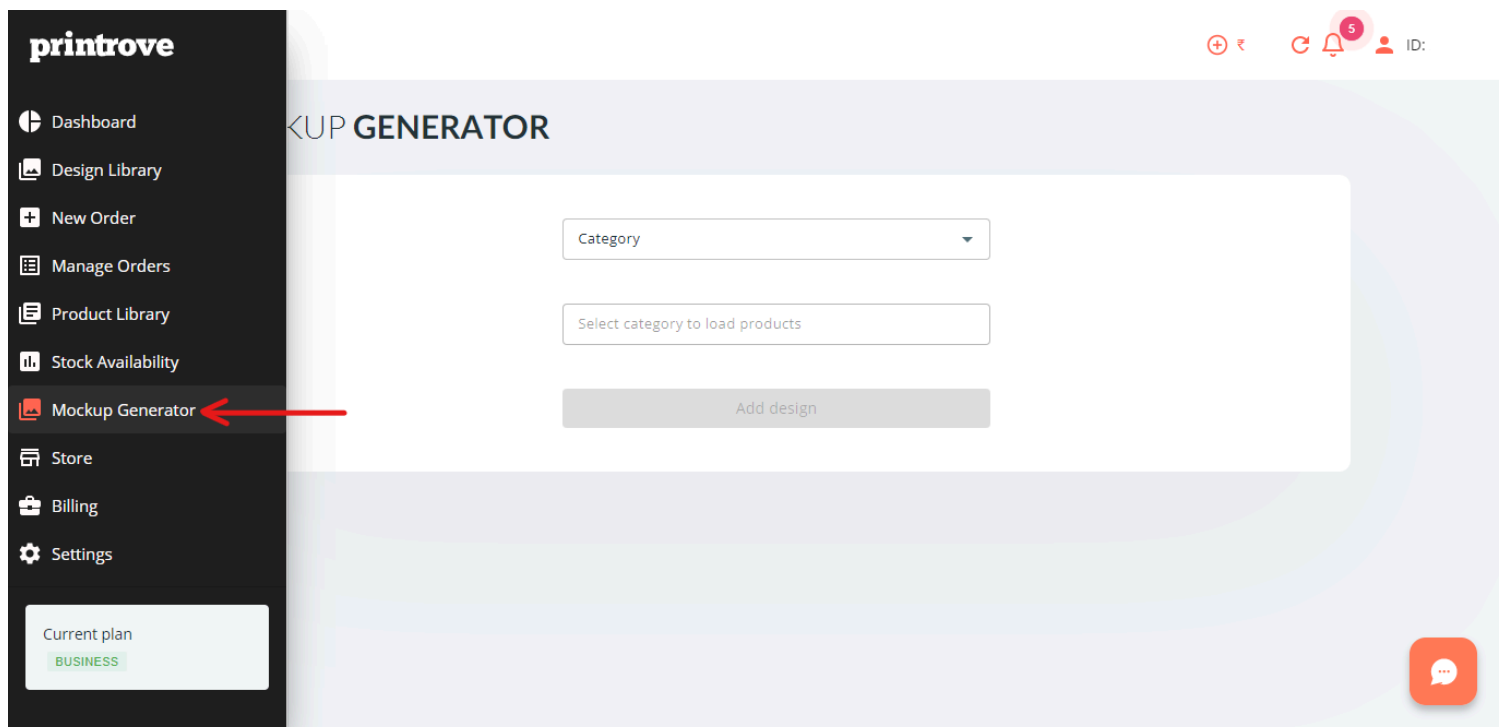

## Mockup Generator

Mockup Generator is a feature offered by Printrove to help you manually generate Mockups for your products and upload them on your store, ecommerce platform or social media.

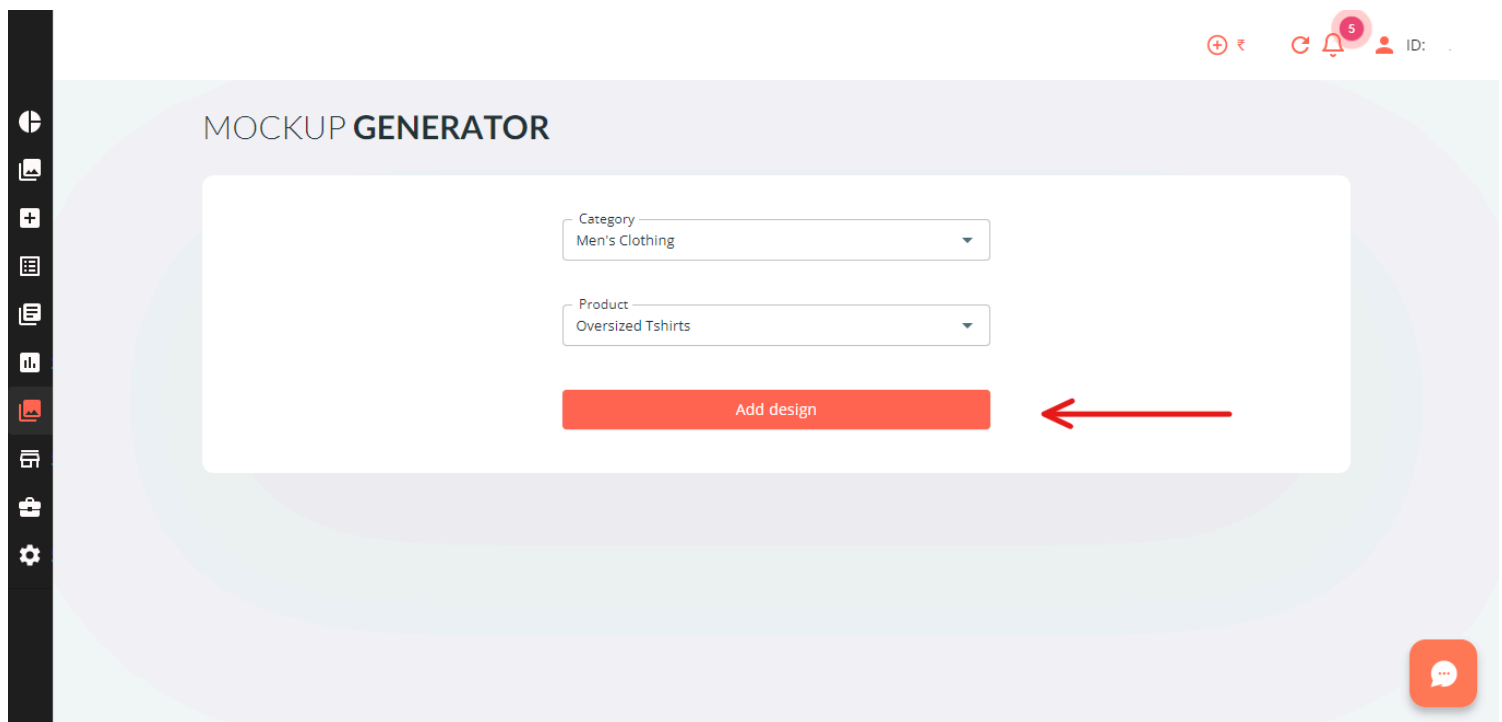

You can generate mockups at Printrove in **5 simple steps**.

**Step 1:** Log in to your [Merchant Panel](#).

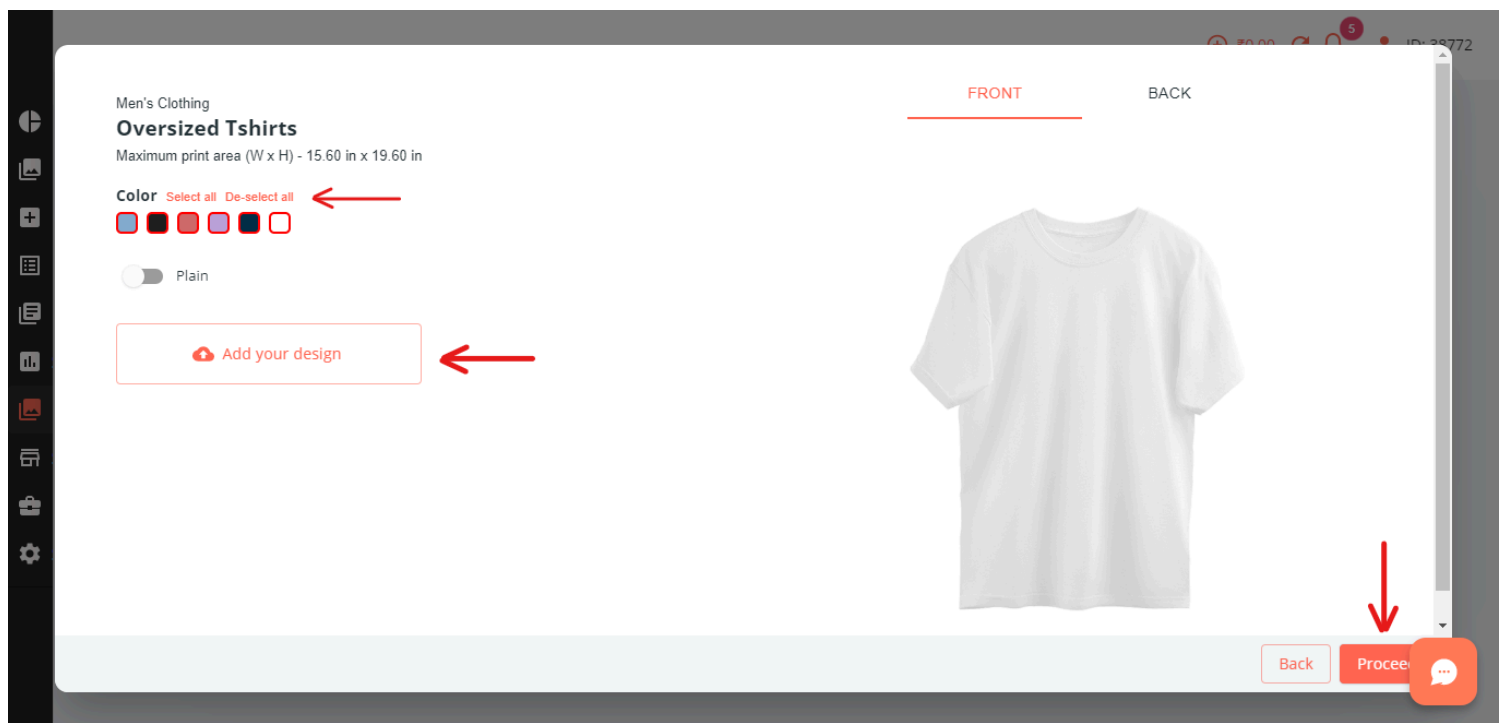

**Step 2:** Hover over the series of icons on the left and click on the **Mockup Generator**.

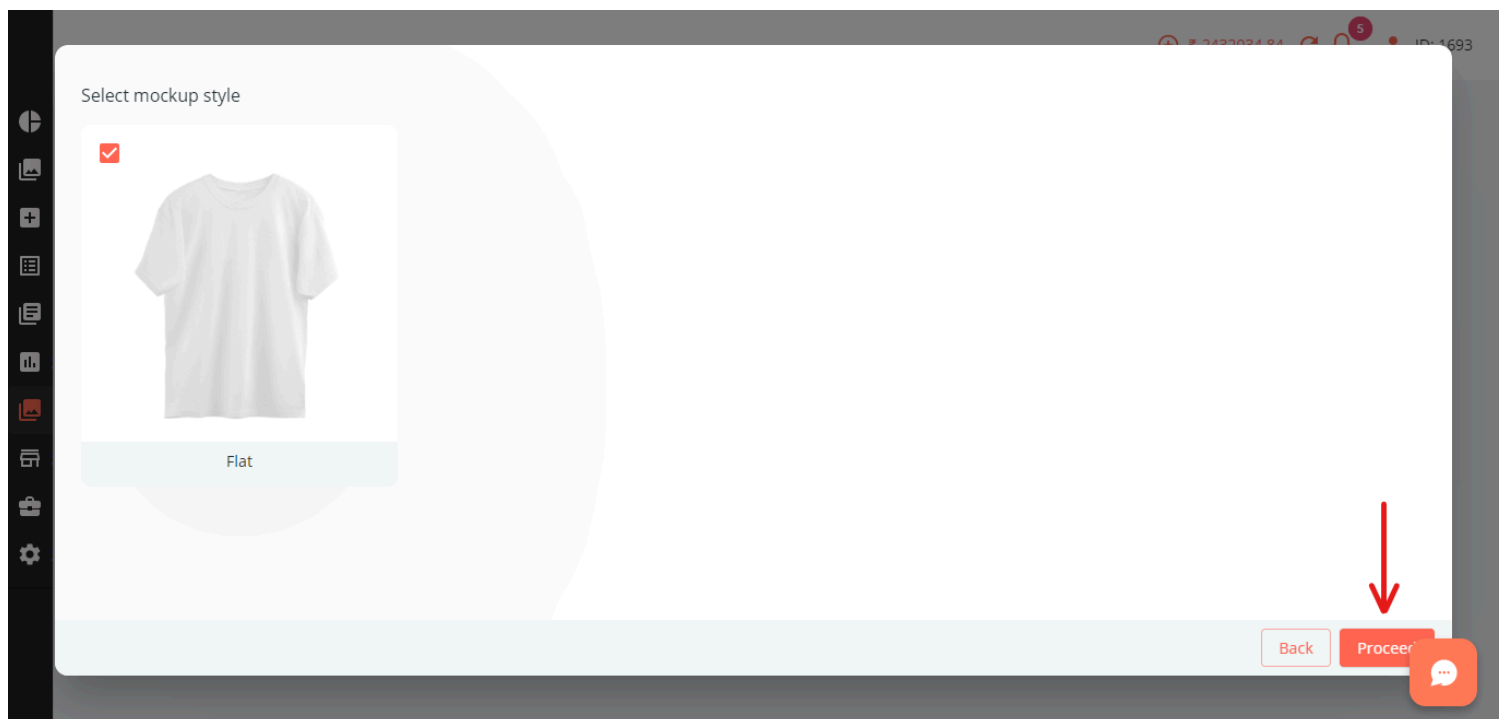

**Step 3:** Select the Category and Product you wish to design and click on **Add Design**.

**Step 4:** Select the colours required, upload and adjust your design to click on **Proceed**.

**Step 5:** Select the Mockup style and click on **Proceed**.

And Done! Your mockups will be generated and sent to your registered email address. You will then be able to download the Zip file and use the mockups as preferred.
